

6-core optical fiber cable in one tube

Overview

Universal (Indoor/Outdoor) dry core optical fiber Multi Loose Tube cable with glass yarns as strength member and Low Smoke Zero Halogen outer jacket. Product: GCROBI06 Universal OFC MLT: GLASS YARNS + LSZH (HIGH TEMP) with 6 gel-free tubes of Ø1. Product feature: This cable has rodent. Fiber Optic Outside Plant Cable, 6-core, CST (Corrugated Steel Tape) Armored, Loose-tube, Gel-filled, 50/125 µm, OM4, Multimode, Black cable jacket Click on image to enlarge. Corning ALTOS® all-dielectric gel-free cables are designed for outdoor and limited indoor use for backbones in lashed aerial and duct installations. The loose tube gel-free design is fully waterblocked using craft-friendly, water-swallowable materials, which means cable access is simple and no clean. This 6F OFC RDSO-approved optical fiber cable on best price is designed for underground telecom and railway signaling applications. Built with single-mode ITU-T G. 652D fibers and protected by corrugated steel tape armor, it ensures high durability in harsh environments. A tariff of 8% may be applied if shipping to the United States.

How does fiber optics work?

Each optical fiber in a multi-mode cable is about 10 times bigger than one in a single-mode cable. This means light beams can travel through the core

Fiber-optic cable

A fiber-optic cable, also known as an optical-fiber cable, is an assembly similar to an electrical cable but containing one or more optical fibers that are used to carry
