

American Industrial Optical Module Manufacturer

Overview

AOI designs and manufactures advanced semiconductors, laser components, optical transceivers, and RF access network equipment that support high-performance connectivity across multiple markets. Under the Agiltron brand name, we engineer best-in-class optical and electro-optical products built on over 25 years of intensive R&D and rigorous industrial engineering. Driven by a commitment to technical excellence, we deliver premium, high-performance solutions that provide unmatched value to. OSI Optoelectronics, founded in 2006 and based in Hawthorne, California, is a private company that specializes in optoelectronic products. OSI. Industrial Optics Unlimited has been fabricating precision optical components for use in a wide range of technical applications since 1990. Suzhou TFC Optical Communication Co. is a one-stop complete solution provider for optical. + LASER COMPONENTS is your partner for detectors, emitters, fiber optics, and optics.
