

Armenia installs fiber optic patch cords

Overview

As part of the implementation of the Digital Armenia strategy, it is planned to provide fiber-optic communication lines to all villages in Armenia, said the Minister of High-Tech Industry Hakob Arshakyan on Thursday. Armenia ended ArmenTel's monopoly around 2005-2007, opening Armenia's internet market to new ISPs and mobile operators. In 2013, Armenia removed the licensing regime for ISPs, allowing any company to provide internet after notifying the Public Services Regulatory Commission (PSRC). Within the next year, according to Hayk Yesayan, Team Telecom Armenia's Co-Founder and General Director, 80 percent of these areas will be. Internet development in Armenia is quite high, but its availability to provinces is still not sufficient, Igor Mkrtumyan, head of the Internet Society nongovernmental organization, said in an interview with ARKA News Agency. "Penetration rate is high thanks to Internet prices and coverage of. Datacom provides structured cabling solutions with cost-effective, high-efficiency passive equipment, including CAT 5-6A and Fiber optics (SM/MM). Our expert engineers design and install SCS/LAN systems that exceed industry standards for networks of any size and topology.
