

Automatic Optical Cable Wrapping Machine

Overview

This automatic cable coiling and wrapping machine provides a cable packing automation solution designed to replace manual labor, enabling one operator to manage 5-8 lines simultaneously during coiling and wrapping processes. 2 billion by 2028, growing at a CAGR of 6. This expansion is fueled by rising demand from telecommunications, automotive wiring, and renewable energy sectors requiring efficient cable bundling solutions. Key industry. Ramatech not only offers systems for winding cable coils, but also has experience with packaging and therefore offers automatic cable winding and packaging systems. Feat: PLC and HMI control program for automatic operation. Need modifications?

Our team can tailor this solution to your specific requirements. Wire & Cable Film Wrapping machine use To wrapping 2 Kg To 50 Kg wire bandal Film Wrapping. ID : 150 To 500 MM.
