

Benin Electrical Cable Tray Procurement Price

AI Overview

Electrical cable trays in Benin are available from local and international suppliers at competitive prices, with costs varying by material, size, and order volume. Supplier Options and Pricing Ned-Tech is a leading supplier in Benin, offering a wide range of cable trays including ladder trays, perforated trays, and trunking systems. Their products are made from galvanized steel, stainless steel, and aluminum, designed to withstand coastal humidity and inland heat. Pricing is cost-effective for bulk orders, though exact figures depend on tray type, dimensions, and quantity, making them suitable for both private contractors and government projects. Brilltech Engineers Pvt. Ltd. also supplies standard and customized electrical cable trays in Benin. They provide ISO-certified products and cater to industrial and construction needs. Their pricing is affordable and tailored to project requirements, with options for both standard and specialized trays. B2B marketplaces like Europages list multiple manufacturers and producers offering galvanized, stainless steel, PVC, and aluminum cable trays. Prices vary depending on material, size, and supplier, but bulk procurement often results in significant cost savings. Suppliers such as Niedax, Eurotray, and VALDINOX provide solutions for industrial, energy, and telecom projects. Local online listings (e.g., Sammy Light Global) indicate that 50x150 mm galvanized and non-galvanized trays are available at affordable prices, with nationwide delivery options, though specific unit prices are typically provided upon inquiry.

Factors Affecting Procurement Price

Material: Galvanized steel is generally less expensive than stainless steel or aluminum.

Tray Type: Ladder trays, perforated trays, and wire mesh trays have different costs.

Quantity: Bulk orders reduce per-unit cost.

Customization: Custom sizes or specialized coatings may increase price.
