

Bhutanese cable tray trough

AI Overview

Bhutanese cable tray troughs are available in various types, sizes, and materials, including perforated, ladder, and basket trays, designed for efficient cable management in industrial, commercial, and residential projects.

Types of Cable Tray Troughs in Bhutan

- Basket Cable Trays:** Open mesh design for easy cable support and ventilation. Available in GI, galvanized, hot-dip, and stainless steel finishes with thicknesses of 3mm to 6mm and heights from 25mm to 100mm. Widths range from 40mm to 1000mm.
- Perforated Cable Trays:** Solid base with perforations to allow airflow and prevent overheating. Offered in welded or bolt-and-nut types, with finishes including pre-galvanized, powder-coated, painted, hot-dip galvanized, and stainless steel (202/304/316).
- Ladder Cable Trays:** Designed for heavy-duty applications, providing strong support for large cable bundles. These trays are durable, easy to install, and suitable for industrial and commercial environments.
- Channel or Trough Type Trays:** U-shaped trays ideal for light to medium-duty cable runs, commonly used in telecom, residential, and IT projects. They are compact, cost-effective, and allow easy installation while maintaining organized cable layouts.

Materials and Finishes

- Galvanized Steel (GI):** Corrosion-resistant, suitable for indoor and outdoor use.
- Stainless Steel (SS 202/304/316):** High durability and resistance to harsh environments.
- Powder-Coated or Painted:** Provides additional protection and aesthetic finish.
- Fiberglass:** Lightweight and non-conductive, ideal for specialized applications.

Benefits

- Cable Protection:** Shields cables from physical damage, dust, and environmental hazards.
- Improved Airflow:** Perforated designs prevent overheating and enhance cable performance.
- Easy Installation and Maintenance:** Modular designs allow quick assembly and adjustments.
- Space Optimization:** Efficient routing reduces clutter and maximizes usable space.
