

China Fireproof Tray Cable Tray Price Quotation

AI Overview

Fireproof cable trays in China typically range from \$15 to \$120 per meter depending on material, size, and customization options.

Price Overview The cost of fireproof cable trays in China varies based on material, dimensions, load capacity, and supplier type. Standard galvanized steel or aluminum alloy trays generally start around \$15–\$30 per meter for basic models, while larger, heavy-duty, or fully customized trays can reach \$80–\$120 per meter. Prices may also differ between direct manufacturers and traders, with manufacturers often offering better rates and customization options.

Material and Specifications **Materials:** Carbon steel, aluminum alloy, or hot-dip galvanized steel for corrosion resistance. **Fireproofing:** Certified to standards such as BS 476 or UL 263 to ensure fire resistance. **Load Capacity:** Trays are rated for static and dynamic loads, typically with a safety factor of 1.5 or higher. **Sizes:** Widths from 50mm to 600mm are common, with customizable lengths and side rail heights.

Supplier Considerations **Direct Manufacturers:** Offer better quality control, lower prices, and customization options. **Reputable Suppliers:** Companies like Shanghai Qionгкаi Industry Co., Ltd. provide tested, durable trays suitable for industrial and commercial applications. **Sample Policy:** Always request a sample to verify finish, weld quality, and dimensional accuracy before bulk orders. **Additional Notes** Bulk orders often come with discounts, and suppliers may provide custom configurations to meet specific project requirements. When sourcing, consider certifications, material quality, and supplier reliability to ensure safety and compliance. For detailed pricing and supplier options, platforms like Alibaba, Made-in-China, and specialized manufacturers' websites provide up-to-date quotations and product catalogs.
