

Denmark Telecom Fiber Optic Cable Construction

Overview

From 2017 to the present, we have planned a fibre network for 450,000 - 500,000 addresses. Planning of fiber networks is carried out as PON (Passive Optical Network) and PTP (Point to Point) technology. This includes preparation of blowing and splicing plans, trace plans . With a proven track record in the installation of Fibre Optic Cables (FOC), JD-Contractor is well placed to provide the successful installation engineering and offshore construction of these. We have a fleet of flexible vessels able to work in both offshore and shallow water conditions and is. Fiberby is a specialized service provider offering high-speed fiber optic internet solutions for housing networks in the Copenhagen area. Their expertise and experience since 2005 ensure reliable and effective network systems. NIRAS has been a supplier to some of the largest fiber network companies in Denmark, primarily covering Jutland and Zealand. Covering LAN and WAN design, installation, testing and faultfinding.
