

Distribution box standard 3147180Z space

AI Overview

The 3147180Z Space is a low-voltage distribution box designed for compact, organized wiring with multiple port and connector options.

Key Features

Voltage and Application: Designed for low-voltage applications, suitable for industrial, automation, or outdoor setups where compact and organized cable management is required.

Port Options: Available with 4, 6, 8, or 10 ports, supporting 3-pin pico, 3- and 4-pin mini, 4-pin DC micro, and 3-pin AC micro connectors.

Connector Wiring: Supports both PNP and NPN wiring, with LED and non-LED versions available. Pre-wired main cables or quick-disconnect mini-plus connectors are offered for easy installation.

Cable Lengths: Standard cable lengths include 1 m, 2 m, 3 m, 5 m, and 10 m, with options to customize based on installation needs.

Dimensions: Exact dimensions are provided in millimeters and inches in technical datasheets, ensuring compatibility with installation spaces.

Compact Design: The box is engineered to save space, reduce clutter, and simplify cable replacement in areas prone to damage.

Durability: Enclosures are robust, often glow-wire tested, and resistant to chemical exposure, ensuring reliability in harsh environments.

Additional Considerations

LED Indicators: LED models provide visual status for easier monitoring of connections.

Environmental Ratings: Depending on the specific variant, the box may have weather-resistant or rainproof ratings suitable for indoor and outdoor use.

Installation Flexibility: The modular design allows for parallel-wired connectors and easy integration into existing systems.

The 3147180Z Space distribution box is ideal for applications requiring organized, reliable, and compact low-voltage distribution, with flexible port configurations, connector types, and cable lengths to match diverse industrial or automation needs.
