

Dominican Bridge Construction

Overview

The public works ministry in the Dominican Republic has announced a programme of repairs to the Juan Pablo Duarte Bridge. Over RD\$7 billion would be invested. While not all of the bridges of the Dominican Republic are large, such as those over the Ozama, Isabela, or Yaque del Norte rivers, there are. The Mauricio Báez Bridge is a cable-stayed bridge on the Higuamo River near San Pedro de Macorís in the Dominican Republic. 8 m (2,014 ft) and a main span of 390 m (1,280 ft), it was the cable-stayed bridge in the Caribbean, when it opened in 2007. The works, which begin in 2026, cover construction, reconstruction, rehabilitation and supervision of bridges in different regions. The project carries a base. SANTO DOMINGO - The Dominican government will implement a comprehensive road infrastructure plan in the Northwest Line, which includes the construction and rehabilitation of roads, bridges, bypasses, and paving programs in the provinces of Montecristi, Dajabón, Santiago Rodríguez, and Valverde, the.
