

Double-sided cabinet concealed power distribution box

Overview

The Double Door IEC Electrical Box is an essential solution for housing electrical equipment and power distribution components in industrial, commercial, and outdoor settings. Built to IEC 60529 standards, it provides optimal protection against dust, water, and mechanical damage. The company is located in Qiligang Industrial Zone, Liushi, Yueqing, Zhejiang, China. The transportation of our factory location is very convenient, 20 minutes from the airport and 5 minutes from the expressway intersection. Nearby ports are Ningbo, Shanghai, and Yiwu Port. With a robust front and rear access in a single cabinet — engineered for high-density control panels, large switchgear assemblies, and installations where internal depth demands dual-door configuration. Available in stainless steel, carbon steel, and FRP with NEMA 4X and IP66 ratings as standard options. Find durable, waterproof, and customizable solutions for any project. A double-sided electrical box, commonly referred to as a duplex receptacle box, is a specialized enclosure designed to house and protect electrical connections that serve outlets or switches accessible from both sides of a wall.
