

Elevated power distribution box

Overview

HV power distribution units (HV PDU) are ideal for a wide range of applications in electric mobility. What is a high voltage box?

The High Voltage Power Box combines the functionality of an Onboard Charger (OBC), a DC/DC converter and a PDU (Power Distribution Unit). The OBC is the interface between the car and the public grid. Our portfolio of HV PDUs enables controlled power flow. Discover our HV PDU solutions – the powerful high-voltage power distribution units from 60 VDC to 1000 VDC for mobile machines and commercial vehicles. The focus here is on solutions for manufacturers of mobile machinery. To support these demands, HUBER+SUHNER delivers innovative modular distribution boxes engineered to adapt to the changing requirements of modern vehicle architectures.
