

Fixed small power distribution box for monitoring

Overview

A fixed power distribution box designed for your loads, clearly labeled, code-compliant, and easy to service. Our small distribution boxes in the type 10 and type 11 series, in particular, offer a large range of options for different combinations due to their modular design. With 0,5m load H07 RN-F 3G2,5mm². A fixed power distribution box —also called a distribution board, switchboard, or remote power panel (RPP)—safely routes utility or UPS power to branch circuit loads through circuit. Power distribution units (PDUs) form the basis for safe and reliable power distribution across a wide range of applications – from industrial environments and construction sites to event and film production. As a globally operating manufacturer, INDU-ELECTRIC develops and produces professional. From power and signal distribution to I&C applications and complete room solutions - we have just what you need. Our solutions enable short planning and realization times and allow optimized construction processes through prefabrication and configuration.
