

How much does an outdoor server rack cost in Africa

AI Overview

Outdoor server racks in Africa typically range from USD 400 to USD 1,500 depending on size, type, and features. Price Overview Outdoor server racks, often rated IP55 for dust and water protection, vary in price based on height (U), depth, ventilation, and load capacity. Common configurations include:

- 9U Wall-Mount Cabinets:** Compact, suitable for small network setups or UPS systems, generally priced around USD 400–600. These often feature lockable doors, removable side panels, and ventilation options for heat management (Tedco Technologies).
- 20U–25U Floor-Standing Cabinets:** Larger, ventilated cabinets designed for multiple servers or network equipment, with IP55 protection and airflow management. Prices typically range from USD 900–1,500, depending on manufacturer and additional features like plinths, cable management, and fan-assisted ventilation (CPS Technologies, FirstShop).
- Heavy-Duty Cabinets:** Designed for high-density deployments with load capacities exceeding 1,200 kg, these are more expensive and may cost USD 1,200–1,500+, offering robust security, thermal efficiency, and factory-direct availability across Africa (CPS Technologies).

Factors Affecting Price

- Size and U Height:** Larger cabinets (20U–25U) cost more than smaller 9U–12U units.
- Mounting Type:** Wall-mounted racks are generally cheaper than floor-standing racks.
- Ventilation and Cooling:** Cabinets with active cooling, fans, or ventilated doors are priced higher.
- Material and Build Quality:** Powder-coated steel, reinforced frames, and IP55-rated enclosures increase cost.
- Supplier and Location:** Prices vary across African countries due to shipping, import duties, and local distribution networks (Wall & Floor Mount Options, Ice Engineering).

Recommended Suppliers in Africa

- CPS Technologies:** Offers IP55 outdoor cabinets with high stock availability and delivery across Africa.
- Tedco Technologies:**...
