

How to turn off Huawei home splitter

Overview

Turn off the AC switch between the inverter and the power grid. After the inverter system is powered off, the residual electricity and heat on the enclosure may still cause electric shocks and body burns. Therefore, wait for at least 5 minutes after system power-off and put on protective gloves before working on the inverter. (Optional) Install the locking screw for the DC switch. Page 3 • Ensure. Restores the HG659 to its default settings after you press and hold this button for 6 seconds or more while the HG659 is powered on. You may also want to know: How To Turn Off A Toniebox?
