

Indian SFF optical module manufacturer

AI Overview

Key Indian manufacturers of SFF optical modules include Delta Broadband, Grandstream India, and UBIQCOM, offering a range of SFP and SFP+ transceivers for telecom and data communications. Notable Manufacturers

Delta Broadband
Established in 1998, Delta Broadband's Module Business Unit has been producing optical transceivers since 2000. They design and manufacture a variety of transceiver modules with data rates ranging from 100 Mbps to 40 Gbps, suitable for applications such as GPON, GE-PON, point-to-point links, and 10G Ethernet networks. Their products include analog and digital optical transceivers, supporting both enterprise and telecom applications.

Grandstream India
Grandstream Network offers a wide variety of hot-pluggable SFF fiber modules, including SFP modules for 1.25/10 Gigabit Ethernet applications. Their modules feature high-sensitivity PIN receivers, signal conditioning, low EMI, and excellent ESD protection, making them suitable for enterprise LAN networks and other optical links. Grandstream India also provides customized solutions for various industrial verticals.

UBIQCOM
UBIQCOM is a manufacturer and supplier of Fiber SFP modules in India. Their SFP modules are compact, hot-pluggable optical transceivers widely used in both telecommunication and data communication applications. UBIQCOM focuses on providing reliable optical modules for networking infrastructure, including enterprise and carrier-grade deployments.

Additional Resources
For sourcing and wholesale options, platforms like IndiaMart and ExportHub list multiple Indian importers, distributors, and manufacturers of optical transceivers and SFF modules, which can be useful for bulk procurement or supplier comparison. These companies collectively cover a broad spectrum of optical module needs, from high-speed Ethernet to GPON networks, supporting both domestic and international networking projects.
