

Installation price of optical fiber distribution box and utility pole

Overview

Fiber optic cable installation costs average \$4,500 for most homeowners, with most installations ranging from \$1,500 to \$7,000. The main cost drivers include material type, run length, trenching or aerial work, and any required permits or inspections. This guide provides clear cost estimates, price ranges. The cost per foot of aerial deployment is less than half of underground, at a cost from \$4 to \$9 per foot, as compared to \$11 to \$24 per foot for underground deployment with the median cost of deploying fiber underground over twice that of deploying fiber aerially. This guide presents typical price ranges in USD to. These fibers are thin strands, often as small as a human hair, that transmit data as pulses of light. Network design is a primary factor in fiber deployment cost.
