Overview

TAIPEI, June 2, 2026 — Delta, a global leader in power management and smart green solutions, is participating in COMPUTEX 2026 under the theme “Superior Efficiency, Shaping Sustainable AI” to demonstrate its cutting-edge technologies for high-performance, MW-scale, and. TAIPEI, June 2, 2026 — Delta, a global leader in power management and smart green solutions, is participating in COMPUTEX 2026 under the theme “Superior Efficiency, Shaping Sustainable AI” to demonstrate its cutting-edge technologies for high-performance, MW-scale, and. Delta will showcase its latest data center innovations at Data Centre World Madrid 2025. A key highlight is the. Munich, Germany – 28 August 2025 – Infineon Technologies AG (FSE: IFX / OTCQX: IFNNY) today announced the strengthening of its existing collaboration with Delta Electronics, Inc., in the development of state-of-the-art high-density power modules capable of enabling vertical power delivery to AI processors in hyperscale data centers. It uses racks as the datacenter carrier and fully integrates all sub-systems including UPSs, cooling, power distribution, lightning protection, fire control (optional), wiring, airflow management, intelligent.
