

MTS8000OTN Spectrometer

Overview

This portable, modular platform is designed for the construction, validation, and maintenance of optical fiber networks. It provides reflectometry measurements, optical power and attenuation measurements, PMD measurements, and chromatic dispersion measurements. Event dead zone: Measured at ± 1.5 dB down from the peak of an unsaturated reflective event. 5. • Module compatible with the MTS-6000 platform High performance suitable for any fiber optic network • High dynamic range with field handheld source : 45 dB • Wide measurement range with minimum. Test Equipment Solutions Ltd specialise in the second user sale, rental and distribution of quality test & measurement (T&M) equipment. We stock all major equipment types such as Spectrum Analyzers, Signal Generators, Oscilloscopes, Power Meters, Network Analyzers etc from all the major suppliers. Manuals and User Guides for Viavi T-BERD/MTS-8000. We found 4 manuals for free downloads User manual, User guide, Instructions, Update Instructions Below you will find brief information for 8100 V2 Modules Series. Based on the award winning VIAVI T-BERD/MTS-8000 platform covering.
