

Malaysia Fire Protection Cable Tray Manufacturer

AI Overview

ACEON, Array Metal, NK Synergy, and MUI Fatt are leading manufacturers of fireproof and FRP cable trays in Malaysia. Key Manufacturers

ACEON Manufacturing specializes in FRP/GRP cable ladders and trays engineered with fire-retardant resin systems and fiberglass composition. Their products are tested to meet ASTM E84 Class A, BS476 Class 1, and NEMA loading standards, ensuring compliance with oil & gas and petrochemical industry requirements. They offer lightweight, high-strength, low-smoke, halogen-free, and anti-static cable trays suitable for offshore and industrial environments, with a service life exceeding 20 years.

Array Metal is a well-established Malaysian manufacturer providing cable trays, ladders, trunking, and wire trays. While primarily known for durable metallic cable trays, they also offer solutions suitable for industrial and commercial applications where fire safety and reliability are critical. Their products are widely used in electrical, telecommunications, and industrial sectors.

NK Synergy offers a versatile range of FRP, steel, stainless steel, and aluminum cable trays, including fire-resistant FRP trays. Their trays are designed for corrosive and heavy industrial environments, such as chemical plants, offshore platforms, and wastewater treatment facilities. They provide perforated, ladder, and wire mesh trays with options for hot-dip galvanizing, powder coating, or pre-galvanized finishes.

MUI Fatt manufactures FRP fiberglass cable ladders and trays that are corrosion-resistant and suitable for fire-sensitive and harsh industrial environments. Their products are lightweight, non-conductive, and engineered for long-term durability in challenging conditions.

Considerations for Choosing a Manufacturer

Fire Safety Compliance: Ensure the trays meet ASTM, BS, or NEMA fire standards.

Material Selection: FRP/GRP trays are preferred for corrosive or offshore...
