

# Manufacturers of optical fiber sheathing granules

## AI Overview

Leading manufacturers of optical fiber sheathing granules include Zeus, Melos GmbH, and Nextrom, offering high-performance polymer solutions for fiber protection. Key Manufacturers and Suppliers Zeus Inc. specializes in polymer-reinforced optical fiber sheathing and high-temperature coatings. They provide a wide range of polymers such as PEEK, PTFE, PFA, ETFE, PVDF, and FEP, designed to protect fibers in extreme environments, including chemical exposure, abrasion, and high temperatures. Zeus works with OEMs, sensor manufacturers, and cable producers to develop customized sheathing solutions for optical fibers. Melos GmbH produces industrial and cable compounds, including granules for sheathing, insulation, and bedding. Their portfolio includes polyurethane compounds and other plastics compatible with fiber optic applications. Melos offers tailored formulations to meet international standards and specific customer requirements, ensuring high durability and resistance to environmental stress. Nextrom is a global supplier of production technologies for optical fibers and fiber optic cables. While primarily focused on fiber drawing, coating, and cable production equipment, Nextrom also provides solutions for fiber sheathing, including monocoil and polymer-based protective layers. CeramOptec provides custom optical fiber cables and assemblies, including sheathing solutions for high-temperature, chemical, and radiation-resistant applications. Their products are used in medical, aerospace, and industrial laser applications, offering both standard and fully customized fiber sheathing. Aksh OptiFibre Ltd. manufactures optical fiber cables and related accessories, including reinforced sheathing rods and protective components, serving both domestic and international markets. Considerations for Selection When choosing a manufacturer for optical fiber sheathing granules, consid...
