

Nepal Transparent Optical Cable ADSS

Overview

Nepal Telecom has taken a monumental step in bridging the digital divide by deploying All-Dielectric Self-Supporting (ADSS) optical fiber from Manma (Kalikot) to Gamgadhi (Mugu) via Jumla. We at D-TECH are proud to share our recent achievement — a 500 km ADSS Fiber Cable Project successfully executed across Nepal. u2028For this project, we are supplying All-Dielectric Self-Supporting (ADSS) fiber cables designed in different span configurations — 100 SPAN, 200 SPAN, 300 SPAN, and 600. In recent years telecom operators and infrastructure companies in growing markets have turned to ADSS (All-Dielectric Self-Supporting) fiber for their aerial fiber needs. ADSS cables are put up between poles or towers with no support from a messenger wire. Our dedicated team of professionals is equipped with the skills and. Bid on readily available Nepal Cables Tenders with GlobalTenders, the biggest and best online tendering platform, since 2002.
