

Plastic cable tray splicing bends

Overview

Hinged splice plate kits for joining cut lengths of plastic cable tray to create flat bends, internal risers or external risers. All components simply click together. Panduit offers industry-leading cable routing systems as part of comprehensive, integrated data center solutions to effectively manage and protect high-performance communication, computing, and power cables. Consult the cable specification sheet for the cable you are installing. Each example of bends and tee's clearly illustrate proper tray cutting combined with recommended usage of Cablofil accessories. Engineers and contractors in North America and around the world have found.
