

Price list of galvanized cable trays in Slovenia

AI Overview

Galvanized cable trays in Slovenia typically range from €15 to €50 per meter, depending on size, type, and galvanization method.

Overview of Pricing

The cost of galvanized cable trays in Slovenia varies based on several factors:

- Tray Type and Size:** Standard ladder trays, perforated trays, and solid-bottom trays differ in price. Widths typically range from 50 mm to 600 mm, and heights from 50 mm to 60 mm, with larger trays costing more per meter.
- Galvanization Method:** Hot-dip galvanized trays are more expensive than pre-galvanized or powder-coated trays due to the durability and corrosion resistance offered by the hot-dip process.
- Material Quality:** High-grade steel and thicker gauge trays increase the price, while lighter or lower-grade steel reduces it.
- Accessories and Fittings:** Bends, couplers, brackets, and support struts, often made of galvanized steel, add to the overall cost of installation.
- Supplier and Volume:** Bulk orders from manufacturers like Bevec d.o.o., Elba d.o.o., or other Slovenian suppliers may reduce per-meter costs, while small orders or custom sizes can be more expensive.

Typical Price Range

- Small to medium trays (50–150 mm width): €15–€25 per meter
- Medium to large trays (200–600 mm width): €25–€50 per meter

Hot-dip galvanized trays: Usually at the higher end of the range due to enhanced corrosion resistance.

Recommendations

- Request Quotes:** Contact local suppliers directly for precise pricing, as costs can vary with order size, customization, and delivery options.
- Consider Total Cost:** Include accessories, installation labor, and any additional protective coatings when budgeting.
- Check Standards:** Ensure trays meet environmental and safety standards for industrial or infrastructure projects.

By considering these factors, you can obtain a more accurate estimate for galvanized cable trays in Slovenia and select the best supplier for your...
