

Price of Angle Steel for Cable Tray Supports

AI Overview

Cable tray support angle steel typically ranges from \$5 to \$25 per piece, depending on material, size, and supplier. Price Overview The cost of cable tray support angle steel varies based on material type, dimensions, and finish. Common materials include galvanized steel, stainless steel, and aluminum, with galvanized steel generally being the most cost-effective and stainless steel the most expensive due to corrosion resistance and durability. Standard sizes and thicknesses influence the price, with heavier-duty angles designed for industrial or high-load applications costing more. Typical price ranges are: Galvanized steel angle supports: \$5-\$12 per piece Stainless steel angle supports: \$12-\$25 per piece Aluminum angle supports: \$10-\$20 per piece Factors Affecting Price Material and Coating: Hot-dip galvanized steel is cheaper than stainless steel, while powder-coated or fire-resistant finishes may increase cost. Size and Load Capacity: Larger angles or those rated for higher loads are more expensive. Industrial-grade supports for heavy cable trays can cost significantly more. Customization: Suppliers often offer custom lengths, hole patterns, or labeling, which can increase the price. Supplier Location and Shipping: International suppliers, especially from China, may offer lower base prices but shipping and import duties can affect total cost. Standards Compliance: Products meeting ISO, CE, or fire-resistance standards may carry a premium. Purchasing Tips Compare multiple suppliers to find the best combination of price, quality, and delivery speed. Suppliers in Shandong, Jiangsu, Tianjin, Guangdong, and other regions offer ISO-certified products. Consider bulk orders, as many suppliers provide discounts for orders over a certain quantity or value. Verify load ratings and corrosion resistance to ensure long-term performance, especially for outdoor or industrial inst...
