

Price of Common Cable Tray Connectors

AI Overview

Cable tray connectors come in various types including elbows, tees, crosses, risers, reducers, and continuity connectors, with prices ranging from a few dollars for basic fittings to over \$100 for specialized or heavy-duty connectors.

Common Types of Cable Tray Connectors

- Elbows** – Used to change the direction of a cable tray system, available in 45° or 90° angles. They are essential for routing cables around corners in commercial or industrial installations.
- Tees and Crosses** – Allow branching of cable trays into multiple directions. Tees split the tray into two paths, while crosses split into four, facilitating complex cable routing.
- Risers** – Vertical connectors that allow cable trays to move between different levels or floors in a building.
- Reducers** – Used to connect trays of different widths, ensuring smooth transitions and maintaining cable support.
- Continuity Connectors** – Maintain electrical continuity across tray sections, often used in metallic trays to ensure grounding and bonding.
- Bolts, Nuts, Locks, and Expansion Screws** – Standard hardware for securing tray sections and connectors.
- Supporting Brackets and Suspension Rods** – Provide structural support for trays, especially in overhead installations.
- Covers, Fixings, and Cable Cleats** – Protect cables from environmental factors and secure them within the tray.

Materials Cable tray connectors are typically made from galvanized steel, stainless steel, aluminum alloy, or fiberglass-reinforced plastic (FRP). Some connectors are aluminum or nickel-plated to withstand extreme temperatures, weather, and dust.

Pricing Overview Basic fittings (elbows, tees, reducers) generally range from \$5 to \$30 per piece depending on size and material. Heavy-duty or specialized connectors (large risers, continuity connectors, or custom-fabricated items) can cost \$50 to \$150 or more. Prices vary by vendor, quantity, and shipping; some suppliers require minimum order quantities or direct vendor shipping.
