

Price of FRP Cable Trays in Taiwan

AI Overview

FRP cable trays in Taiwan typically range from USD 20 to USD 80 per meter, depending on type, size, and customization.

Pricing Overview The cost of FRP cable trays in Taiwan varies based on material quality, tray type, and supplier. Standard ladder-type or solid-bottom FRP trays generally start around USD 20–30 per meter, while heavy-duty or custom-designed trays can reach USD 60–80 per meter. Bulk orders or wholesale purchases may reduce the unit price, especially from manufacturers like Enduro, ACEON, and Indiana Group. Newer suppliers such as Ventura Fibre focus on sustainable materials, which may slightly increase costs due to eco-friendly production.

Factors Affecting Price

- Tray Type:** Ladder, solid-bottom, trough, and wire mesh designs have different manufacturing costs.
- Material Quality:** High-strength, corrosion-resistant, flame-retardant FRP trays are priced higher.
- Customization:** Special dimensions, bends, tees, or risers increase cost.
- Supplier and Certification:** ISO-certified manufacturers or high-tech enterprises may charge premium prices for quality assurance.
- Market Trends:** Taiwan's FRP cable tray market is growing at a projected CAGR of 13.3% from 2026 to 2033, reflecting rising demand for durable, lightweight, and sustainable cable management solutions.

Purchasing Options

- Local Suppliers:** Companies like Enduro and ACEON provide high-performance FRP trays with local support.
- International Wholesale:** Platforms like Alibaba and Qiongkai Global offer bulk FRP trays with competitive pricing, suitable for large projects.
- Customization Services:** Many suppliers provide tailored solutions for industrial or commercial installations, which may affect lead time and cost.

Recommendation For accurate pricing, it is advisable to request quotes directly from suppliers, specifying tray type, dimensions, and quantity. This ensures the price reflects current market conditions, customization, and shipping costs within Taiwan.
