

Prices of 48-core optical fiber cables from different brands

AI Overview

48-core optical fiber cables typically range from \$0.30 to \$6.50 per meter, depending on fiber type, jacket, and construction.

Price Overview

- Single-mode (OS2) 48-core cables: \$0.30 to \$2.80 per meter, with price variations based on brand and quality of glass fiber (generic vs premium like Corning)
- Multimode (OM3/OM4) 48-core cables: \$1.50 to \$6.00 per meter, reflecting higher manufacturing complexity and performance standards
- Armored cables: Steel tape or armored versions for protection against physical damage cost \$1.15 to \$6.50 per meter

Wholesale bulk purchases: Prices can be lower, ranging from \$0.09 to \$1.52 per foot for single-mode and \$1.50 to \$6.00 per foot for multimode, depending on quantity and supplier

Factors Affecting Price

- Fiber Type and Count:** Higher strand counts increase cost proportionally. A 48-core cable is more expensive than 12- or 24-core cables
- Jacket Material:** LSZH (Low Smoke Zero Halogen) jackets are 25–40% more expensive than standard PVC due to safety and environmental benefits
- Cable Construction:** Indoor riser-rated cables are cheaper than plenum-rated or direct-burial cables. Armored cables for harsh environments cost more
- Brand and Quality:** Premium glass fibers reduce signal loss and improve long-term reliability, which increases upfront cost

Pre-Terminated vs. Bulk: Pre-terminated cables cost 20–30% more but save on installation labor and reduce troubleshooting costs

Where to Buy

- Mouser Electronics offers 48-fiber cables with inventory, datasheets, and pricing filters based on quantity
- Alibaba lists per-meter prices for various 48-core cables, including aerial, duct, and submarine types, with options for SM/MM fibers and PE/LSZH jackets

Practical Considerations

When budgeting for a 48-core fiber optic cable project, consider not only the per-meter cost but also installation type (indoor, outdoor, aerial, or underg...
