

Quotation for galvanized cable trays in Malaysia

AI Overview

Galvanized cable trays in Malaysia typically range from RM 50 to RM 250 per meter, depending on material, size, and design.

Overview of Pricing

The cost of galvanized cable trays in Malaysia varies based on material quality, galvanization method, tray type, and dimensions. Hot-dip galvanized (HDG) trays, which offer superior corrosion resistance, are generally priced higher than standard galvanized trays. Prices for perforated, ladder-type, or solid-bottom trays differ due to manufacturing complexity and material usage.

Hot-Dip Galvanized (HDG) Steel Trays: RM 120–RM 250 per meter, suitable for outdoor or industrial environments with high moisture or corrosive conditions.

Standard Galvanized Steel Trays: RM 50–RM 150 per meter, commonly used for indoor installations or less demanding environments.

Aluminum or Stainless Steel Options: Typically more expensive, ranging RM 200–RM 400 per meter, offering lightweight and high corrosion resistance.

Factors Affecting Price

Tray Size and Width: Wider trays or those with higher load capacity cost more.

Design Type: Ladder trays are generally more expensive than perforated or solid-bottom trays due to additional material and fabrication requirements.

Galvanization Quality: Hot-dip galvanization provides thicker zinc coating and longer durability, increasing the price.

Supplier and Location: Prices may vary slightly between suppliers in Kuala Lumpur, Johor Bahru, and other regions.

Recommended Suppliers in Malaysia

SAN Engineering: Offers HDG trays with corrosion-resistant finishes and various sizes, compliant with local and international standards.

Super Cable Tray Pvt. Ltd.: Specializes in perforated and ladder-type galvanized trays for commercial and industrial applications.

Sik Supply Sdn Bhd: Provides HDG and stainless steel trays with zinc, PVC, or epoxy coatings, suitable for diverse installations.

YSE Electric (M) Sdn. Bhd.: Supplies robust HDG tr...
