

Singapore Primary Distribution Box Wiring Price

Overview

Electrical rewiring cost in Singapore (2025): HDB 3-5 room typically from \$1,200-\$4,500+ depending on number of points and whether it's surface or concealed wiring. Power socket installation (per point): ~ \$60-\$130+ (surface). Concealed is higher due to hacking/reinstatement. Professional installation by a licensed electrician ensures your home is safe, your insurance remains valid, and your electrical system is built to last. It powers the air-con, runs the kitchen, pulls fibre to the router, and keeps your fridge humming twenty-four hours a day. Yet most homeowners only think about wiring when something goes wrong – a tripping breaker, a buzzing power. The 2025 electrician price guide in Singapore, compiled by Homejourney, lists transparent rates for services including lighting, socket installation, and distribution board (DB) box repairs across HDB flats, condos, and landed properties. Pricing is based on data from licensed providers adhering to. In May 2023, the Energy Market Authority (EMA) and the Housing and Development Board (HDB) mandated the installation of a safety feature called a residual current circuit breaker (RCCB) in any electrical distribution board box all over Singapore. It is preferable for skilled professionals to handle a challenging and drawn-out process.
