

Thickened Waterproof Optical Cable Distribution Box

Overview

The distribution box has an IP67 protection class that provides waterproof capability and flexible connectivity and demarcation for FTTA applications, including telecommunication networks, data transmission, LAN, deployment in remote radio, and so on. Excellent quality is the foundation of. It offers a 12-fiber MTP adapter on the rear of the units routed to duplex LC adapters on the side field, which interconnect with high-density fiber cable assemblies. Available in 2, 4, and 8-core versions, it is perfect for a variety of applications, including FTTH (Fiber to the Home), FTTx. The 8 port waterproof fiber optic distribution box (Model: SP-FTTH-B08) is a high-performance termination and distribution solution designed for FTTH-ODN networks. It serves as a secure interface between feeder cables and drop cables, supporting fiber splicing, splitting, cross-connection, and.
