

Wholesale Price 400G Fiber Optic Enterprise Router

AI Overview

Wholesale 400G fiber optic enterprise routers are available from multiple global suppliers, with pricing and bulk options varying by manufacturer, features, and order volume. Overview of 400G Fiber Optic Routers 400G routers are designed for high-capacity, enterprise-level networks, supporting large-scale cloud, leaf-and-spine architectures, and hyperscale IO-intensive applications . They provide future-proof scalability, operational flexibility, and high throughput, making them suitable for organizations expecting significant traffic growth . These routers often include advanced features such as modular design, high-density ports, and enhanced security capabilities. Wholesale Suppliers and Options Several suppliers offer factory-direct or wholesale 400G fiber optic routers: China-based manufacturers provide competitive pricing, customization options, and manufacturer warranties. Bulk purchases can significantly reduce per-unit costs while maintaining high performance . Router-Switch.com distributes enterprise networking equipment from brands like Cisco, Huawei, and HPE, offering worldwide shipping and expert support . Accio-listed wholesalers such as Shenzhen Hs Fiber Communication Equipment, Huizhou Adp Optical Communications, and Guangzhou Queenton Electronics are notable for high revenue volumes, strong delivery performance, and customer satisfaction, making them reliable for large orders . Pricing Considerations Wholesale pricing depends on router specifications, port density, and supplier agreements. While exact prices are not publicly listed, bulk orders from factory-direct suppliers in China or established distributors typically offer substantial discounts compared to retail pricing. For example, 400G IP transit solutions from providers like Orange Wholesale demonstrate cost efficiency, with operational savings per gigabyte and reduced power consumpt...
